ESTYN INSPECTION REPORT A paper copy of our good inspection report will be distributed to all parents next week. This is a very pleasing report. Well being and attitudes to learning were not classed as good due to poor school attendance. Our target is 95%, many children are below this threshold. If children are not in school they miss out on important teaching and learning. Obviously we do not expect poorly children to be in school but we can administer medicine for minor ailments such as coughs and colds upon completion of a form giving us permission to do so. Here is a summary of our report.

A report on St Anthony's R.C. Primary School
January 2019

Summary

Nearly all pupils, including those with additional learning needs, make sound progress as they move through the school. Pupils achieve well by Year 6. Pupils settle into lessons quickly, demonstrate strong levels of concentration and enthusiasm, and move between tasks sensibly and efficiently. They are polite and well mannered. They show respect for adults and for one another within a purposeful learning environment. Teachers prepare interesting lessons for pupils and planned activities flow well.

The school has a strong caring and inclusive ethos. This has a very positive effect on pupils' wellbeing and behaviour. However, pupils' overall attendance is too low when compared with that in similar schools.

The headteacher has a clear vision for the future development of the school, which staff, governors and parents share. Governors are very supportive of the school and have a clear understanding of the school's strengths and areas for improvement. They use this information effectively to challenge the school about its performance.
