

Have Your Say!

FLINTSHIRE'S FAMILY CONSULTATION

We want to develop an easy to access and easily available, family friendly and responsive early years information, advice and support service for children from birth to age 7, and their parents. To help, we want to hear about parent and child experiences and what matters most, to hear about experiences, the good and the bad, and what might make a difference.

The Parent Voice Flintshire is an opportunity for a chat using some key questions to hear about what is important to you as a parent, your parenting experiences and do the best for each child.

VIRTUAL EVENTS
Join our online meeting rooms where you can share your thoughts and discuss your ideas with our facilitator and other parents

Engagement Opportunities

We believe that now is the right time to build a more robust understanding of the needs of our families and work together to produce a provision that puts the needs of each child at the very heart. We are actively working towards meeting the aims and values set out within the Early Years Integration and Transformation programme across Flintshire.

“We want children to have the best start in life and for families to have opportunities to support their child’s development, wellbeing and happiness. With your help we can develop services that make a difference to your community and family life”
